

## Lubes & Fuels Glossary with individual company cover

*(only 1x available)*

The „Lubes & Fuels Glossary“ is a compact reference book with 950 explanations of terms for the product groups of lubricants and fuels, for the areas of chemicals legislation, environmental protection and safety, as well as for the topics of sustainability and climate neutrality. References to relevant DIN/ EN/ISO standards and other terms make it easy to find further information on a topic. The extended overview table with important test methods contains the corresponding ISO standards as well as cross-references to various national standards.

The „Lubes & Fuels Glossary“ of UNITI is a valuable guide for daily work and is recommended for all professionals. It is published in a handy DIN A5 format and is also an ideal promotional gift.

With this sponsorship for the UMTF, we offer you the opportunity to provide all participants with the „Lubes & Fuels Glossary“ (English version) with your company's individual cover (front and back).

To design the glossaries, all you need to do is create a company-specific cover according to printing specifications. We will take care of the production and distribution of **your glossary** for you. This will remind customers of your company every time they look it up.

600 copies with your cover will be produced and distributed to all participants. The remaining copies will be sent to you after the conference for your own use.

In return for your sponsorship, **your company logo** will appear in the conference folder, on the welcome chart at the start and during breaks, and in the UMTF app.

**This sponsoring will be charged with € 6.000,- plus VAT.**
